EXPERIENCE

Web Developer Intern

CodeClause

May 2023

Remote

Developed three niche user interfaces—Unit Converter, Timer and Stopwatch, and Payment Gateway Interaction using the Razorpay API while learning various aspects of logic building with JavaScript functions, creating the skeleton with HTML, and enhancing user attraction with CSS3 for smooth website functionality.

TECHNICAL SKILLS

Front-end: React, JavaScript (ES6), TypeScript, Bootstrap5, jQuery, HTML5, CSS3

Back-end: Python3, Django, Core Java, C++, Node.js, npm, Express.js

DBMS: MySQL, PostgreSQL

Techniques: OOPS, API-fetching, URL-mappings, ORM-mappings

Analysis Libraries: numpy, pandas, matplotlib, seaborn

ML Techniques: EDA, Regression, Classification, Data Mining, Data Cleaning, Regularization, Clustering, Anomaly Detection, Bagging, Boosting, PCA, K-Nearest Neighbor

Cloud: AWS, GCP

Version Control: Git, GitHub

Design/Dev: VS Code, PyCharm, Canvas, GFG, Leetcode, HackerRank

PROJECTS

CountriesApp || React.js, Node.js, npm, Parcel.js

- Explore country data like names, flags, capitals, and populations, all sourced from an external API.
- Easily search and filter countries using a responsive and intuitive interface.
- Flag images are dynamically loaded through the API to ensure up-to-date visuals.
- Built with React and Parcel, ensuring fast load times and smooth interactions.
- Project Link : <https://countries-app-prod.netlify.app/>

BlogWorld || Python3, Django, XAMPP(MySQL)

- Led the development of a Django-based blog platform with user blog data profiles.
- Curated displaying the date of blogs in IST-Timezone to when was it last edited.
- Implemented user-specific blog editing permissions to access control on a blogging platform.
- Increase the user security and reduction in unauthorized edits.
- Project Link : github.com/SiddheshP1996/blogWorld

QR Code Image Generator || JavaScript, Node.js, npm

- Developed a system to generate dynamic QR code images from URLs.
- Enhanced app responsiveness by using asynchronous operations, improving load times.
- Optimized the QR code generation process using libraries like Inquirer and qr-image.
- Focused on improving efficiency and user experience in the overall implementation.
- Project Link : github.com/SiddheshP1996/QR-Code-Image-Generator-using-NodeJS

POSITION OF RESPONSIBILITY

Social Media Team Head

Aug 2022 - May 2023

Books & Beyond Dept Club

- Coordinated effectively with a diverse team of 30 members, leveraging their expertise to enhance team performance.
- Acquired valuable insights from every team members, contributing to the successful execution of club publicity, book donation drive.
- Enhanced decision-making skills, leading to a 40% improvement in engagement during my tenure as Social Media Head.

PROFESSIONAL COURSE & CERTIFICATIONS

• Data Software Engineering	Aug 2024	• Python & Django Framework	Mar 2024
• Data Science Essentials	Aug 2024	• IBM Python for Web Development	Feb 2024
• AWS Cloud Practitioner (AWS C2I)	May 2024	• Web Designing Basics	Dec 2023
• AWS Cloud Practitioner Essentials	Apr 2024	• Foundation With SQL	Oct 2023

EDUCATION

Dr. D. Y. Patil College Of Engineering (SPPU), Akurdi, Pune, MH

8.33 CGPA, 74.96%

B.E. in Electronics & Telecommunication, Honours in IOT

April 2023

Vivekanand College (Maharashtra State Board), Aurangabad, MH

72.62%

12th with Physics-Chemistry-Mathematics (PCM Group) and Computer Science

May 2019
